

NEW MASTS FOR DEFENDER

THEY WERE SENT FROM BOSTON TO
BRISTOL ON THREE CARS.

On Their Arrival They Were at Once Put
Overboard—Hummocks Are Well Defined
—She Will Have Two Extra Backstays—
Work on the Yacht Will Be Rushed.

Providence, Aug. 23.—The new mast and mainmast for the Defender arrived at Bristol from Boston at 7:30 o'clock to-night. The train consisted of an engine and three flat cars, and it came through in quick time. News of the coming of the train had been sent along, and workmen and sailors from the Defender were on hand to receive the spars. They were put overboard, and at 9 o'clock the Hattie Palmer towed them to the works.

Both sticks were very much admired. The topmast is a little larger at the heel, but about the same length as the old one. The mainmast head is two feet longer and the diameter near the hounds is two and a half inches greater. The hummocks are well defined and close up to the hounds to prevent slipping. Height is the same as the mast just taken out from hounds to deck floor. The hounds are brought down to below the heel of the topmast. This was reversed in the older masts. She will have two extra backstays.

Work will be pushed all night and Saturday. She may be ready by Sunday night, fit to take a trial Monday, but it is not expected that she will be able to leave Bristol before Tuesday, while some put the date of her departure as late as Wednesday.

If the yacht cannot get away at an early hour on Monday, what time seems to be really impossible then the trial race with Vigilant scheduled for Tuesday will have to be postponed. The work, of course, be rushed, but it seems too much to expect a departure before Tuesday. Defender lay at her moorings off the boatshops in Bristol harbor to-day all day with her mast out which gave her a rather modest appearance from the contrast of a full rig of the previous days.

When the big mast was laid on the wharf the bustle of the early morning was practically over, and the riggers went leisurely to work stripping the stick of the shrouds, backstays and runners. By noon this work was all about done. In the afternoon the spreaders, bands and loops were removed and the stick was measured by Captain Haff, assisted by some of the crew. Mr. Iselin with Messrs. Kane and Leeds came ashore in the forenoon, visited the shops, eagerly watching the construction of the steel boom in the south shop.

The new spars and rigging will make some difference to the appearance of the yacht, and it is likely that if measured a difference in her racing length would be apparent. The yacht will, of course, be again measured before the cup races, and it is probable within Mr. Willard's province to waive the right to have her measured before the trial races.

New York, Aug. 23.—In a telegram to a friend here to-day C. Oliver Iselin stated that the Defender could not leave Bristol before Monday night. This means that it will be impossible to have another race on Tuesday. Newberry Thorne went down to the Erie basin this afternoon to look at the Valkyrie. In speaking of the Defender's mishap of Tuesday last he said:

"It is not at all surprising that Defender's spars weakened. If you remember they were built for her first sails. Afterwards we discovered we could carry a much larger suit. We used the same spars and consequently the strain on them was much greater. We have been looking all along to see them weaken. It was surprising that the weakness did not develop before. When we go to the start in the next race you may be sure we will be in the best of condition."

In regard to the Valkyrie Mr. Thorne said: "I do not like to venture a conclusive opinion upon her in dry dock. She is a mighty powerful craft, however, and splendidly rigged. She appears to be a very smart vessel and I have but little doubt she will sail as well as her lines in dry dock indicate."

CROQUET TOURNAMENT ENDED.

George Strong of New London is Now
Champion of America.

Norwich, Conn., Aug. 23.—The games in the national croquet tournament are practically completed to-night. The only division in which prize winners are not determined is the second, where Walley of Washington, Fay of Brooklyn, and W. H. Agar of Trenton are the only ones who have a show for the second prize.

George A. Strong of New London leads the first division, and as all the games are played, he is champion of America. He won the same honor last year.

Charles Jacobus of Springfield and George C. Burgess of Northampton were tied for second place, and in a tie game Burgess defeated Jacobus and won the prize. In the third division W. Cady of New London won first prize, winning ten games and losing one. Plann of Wilmington, Campbell of Leesburg, Fla., and Smith of Northampton were tied for second place in the third division. The tie was played off and Smith won. The Van Winkle gold badge games were all won by Jacobus. Strong was his opponent, Jacobus has earned the badge twice, and one more contest will give him possession of it for life.

Drowned While Swimming.

Norwich, Aug. 23.—Harry Alosen, the fourteen-year-old son of Herman Alosen, was drowned in the Thames to-night while swimming. The body has not been recovered. The boy's parents belong in Newark.

ON THE BALL FIELD.

Results of the Games in the Big League
Yesterday.

At New York—New York won a cleverly played game from St. Louis to-day. There was plenty of good clean hitting. Meekin used a slow ball. Breitenstein was touched up hard in the second, fifth and sixth innings. The score:

New York... 3 0 0 1 3 0 0 4-7
St. Louis... 1 0 0 0 3 0 0 0-4

Hits—New York 12, St. Louis 12. Errors—New York 3, St. Louis 4. Batteries—Meekin and Farrell; Breitenstein and Peitz.

At Philadelphia—Philadelphia twice defeated Louisville to-day. The score:

Philadelphia... 0 0 2 2 0 0 1 0-5
Louisville... 0 0 1 0 2 0 0 1-4

Hits—Philadelphia 13, Louisville 9. Errors—Philadelphia 1, Louisville 2. Batteries—Carey and Grady; Inks and Warner.

Second game—

Philadelphia... 2 0 2 0 4 2 0 0-12
Louisville... 0 0 1 1 0 0 1 0-3

Hits—Philadelphia 16, Louisville 10. Errors—Philadelphia 1, Louisville 3. Batteries—Orth and Clements; Weyhing and Warner.

At Brooklyn—The game of June 1 protested by the Pittsburgh club was played over to-day and was again won by the Brooklyn. Foreman was wild and was relieved by Hawley after the third inning. The home team won the game in the last inning. The score:

Brooklyn... 2 0 1 0 2 0 0 0-7
Pittsburgh... 3 0 0 1 0 0 1 1-6

Hits—Brooklyn 6, Pittsburgh 12. Errors—Brooklyn 5, Pittsburgh 2. Batteries—Stein and Grim; Foreman, Hawley and Merritt.

At Baltimore—The champions won two games from Washington to-day, one being a postponed contest. The score:

First game—
Baltimore... 1 0 1 0 3 2 1 0-8
Washington... 2 0 0 1 1 0 1 0-6

Hits—Baltimore 7, Washington 10. Errors—Baltimore 4, Washington 4. Batteries—Clarkson and Clarke; Muller and McGuire.

Second game—
Baltimore... 2 1 1 0 2 5-11
Washington... 0 0 0 4 0 0-4

Hits—Baltimore 10, Washington 6. Errors—Baltimore 2, Washington 7. Batteries—McMahon and Clarke; Corbett and McGuire.

At London—The Boston Amateur team to-day defeated the Thonaby nine by a score of 34 to 11. To-morrow they will play the Stockton team, who are the champions of the north of England.

Ohio National Bank Closed.

Cincinnati, O., Aug. 23.—The First National bank of Franklin, O., has suspended.

Washington, Aug. 23.—Comptroller Egles to-day received a telegram from the cashier of the First National bank of Franklin, O., announcing that the bank closed its doors this morning, and asking to place some one in charge of its affairs. Bank Examiner Madison Betts was immediately instructed to proceed to Franklin and assume charge.

No statement of assets and liabilities has yet reached the treasury department.

To Lessen Violence of Waves.

Washington, Aug. 23.—Thomas W. Wilson, a seaman recently serving on the training ship Portsmouth, has devised a method and the necessary apparatus for distributing oil at sea to lessen the violence of the breaking waves. The device consists of a metal tank enclosed in a wooden box from which a rubber tube passes to the surface. The flow of oil can be easily started and regulated by hand pressure, and the tube is kept in the desired position by a guy.

China May Learn Something.

Washington, Aug. 23.—The news in press dispatches from Shanghai that Liu Ping Chang, the degraded viceroy of Szu-Chuan had been appointed imperial high commissioner to investigate the outrages in the English missionaries has not been confirmed officially through any dispatch received at the state department, but when such confirmation does come the sentiment of this government is likely to be made known in such manner that China will realize how much in earnest the United States are in bringing the Ku Cheng massacre to a conclusion satisfactory to this country.

In Need of Repairs.

New York, Aug. 23.—The United States cruiser Atlanta arrived to-day from Key West. She will coal and join the North Atlantic squadron at Bar Harbor. She is in sore need of dry docking, more than usual time having elapsed since she was docked and in service in tropical waters, having fouled her bottom badly. Her boilers will have to be replaced before long also. They have been in use thirteen years. She is able to make only seven knots at best, and in bad weather she slows down to four.

Used With Courtesy.

London, Aug. 23.—A dispatch to the Central News from Paris says that the French government has issued a statement concerning the negotiations with the United States in reference to the Waller case. Proceeding in a most courteous manner the statement sets forth that a member of the American embassy in Paris has been allowed to visit Waller at Clairvaux, but adds unjustly and illegally convicted and sentenced can only be examined when the official transcript of the proceedings of the court martial held in Madagascar arrives in Paris.

THEIR WORK IS AT AN END

MUCH DONE BY THE NAVAL MILITIA
AT ATLANTIC CAMP.

Valuable Work Has Been Done During the Week—Practice Work Done With the Hotchkiss Guns—Men Were Up Early and at Once Went to Work.

Camp Coffin, Niantic, Aug. 23.—The work of the Connecticut naval militia for the past week was brought to a close here to-night and preparations were made after dinner this evening for an early start back to New Haven. For the first encampment here the naval militia men have performed much work, and the officers of the division are proud in their praises of the result of the week's work. While the men have not had the practical work they experienced during their first year's drill on board the Atlanta, still some valuable instruction has been given in other branches of the naval militia men's work duty. The men were up early this morning and started in at 7 o'clock with the routine. The cutters were drawn up on the beach and the two Hotchkiss guns and the large howitzer were loaded in. The men then rowed around to the Niantic bar and practiced with the guns all day. As it had already been demonstrated that the target practice should be performed out in the bay. Accordingly Lieutenant Reynolds had a target placed in position about 500 yards off shore. It was two kegs placed in an upright position. The guns were taken from the cutters and limbered on the beach facing the bay just south of the Consolidated railroad drawbridge. One hundred rounds of ammunition were fired and the targets were entirely demolished. Late this afternoon there was another short boat drill, and then the cutters were rowed over to the Morton house pier in the bay, where it would be convenient for the naval militia men to make an early start from in the morning for New Haven.

To-night the men were engaged in packing their luggage bags and getting ready to leave the camp. It is proposed to leave here at 7 o'clock in the morning and arrive in New Haven to-morrow night. A change in this program is probable, and it is thought possible that the men will put ashore somewhere between here and New Haven to-morrow and camp over Sunday.

The summer residents here regret the leaving of the men. To-night a number of young people from Crest Beach and that locality came down to the camp and indulged in the celebration.

CRAWFORD WAS QUICKER.

He Pulled and Used His Revolver Before Johnson and Killed Him.

Lexington, Mass., Aug. 23.—A murder was committed in this town this afternoon near the Lincoln town line. The murderer being Albert Crawford, the driver of a cart, employed at the new reservoir of the Cambridge waterworks, and his victim, Jack Johnson, thirty-five years old, who lived in Boston. Both parties were negroes.

Crawford owed Johnson \$9 and this afternoon the latter went to the waterworks and made a demand for the money, Crawford being at the time in the little shanty used by the gang of laborers. A war of words ensued and finally Crawford asked "have you got a gun?" to which Johnson replied "yes." Each quickly drew a revolver from his pocket, but Crawford was the quicker, and before Johnson could fire he had received a ball in his breast, from which he died almost instantly.

As soon as Crawford realized what he had done he grabbed the dead man's revolver and made for the woods, where he was captured soon after. He evidently threw away his own weapon in his flight as it has not been found, but the revolver which he took from Johnson's person is said to have been picked up by two colored men who took a train for Boston. Crawford was brown-skinned and looked up. Both principals were married and Crawford has a family.

IN A MERE GHOST.

There is Some Uncertainty Regarding the
Makeup of the London Team.

London, Aug. 23.—The Field says that the London Athletic club team that will meet the team of the N. Y. A. C. team is a mere ghost of what is once appeared likely to be. The uncertainty regarding the composition of the team continues. As at present arranged, it includes Bradley, Downer, Shaw, Oakley, Fitzherbert, Frye or Mendelson, William Robertson, Jordan, Horan and Lutyns, eight of them being university men.

The Field adds that despite the fact that it was well understood that either side might add to its strength, great surprise was caused here when it became known that Coniffe had been elected by the New York club. It was felt that an athlete who failed to become a professional here because nobody would accept his challenge was scarcely the man to represent the leading amateur club of America. The paper considers the outlook dispiriting for the Englishmen, but it is fully confident they will have a chivalrous treatment and fair play. It concludes:

"An American may be a difficult man to make a bargain with, but when it is made he will not depart from it."

Robbed a Judge.

Chicago, Aug. 23.—Circuit Judge G. E. Goldsboro of Central Falls, R. I., who has been in the west and was on his way to Boston to the Knights Templar convocation, was assaulted and robbed on the street to-night. One of the thieves threw away the judge's pocketbook when pursued.

CONSOLATION MATCHES.

They Were the Only Ones Played in New-
port Matches.

Newport, Aug. 23.—Only consolation matches were played this afternoon and that series has advanced well into the second round. During the afternoon Wrenn was out for practice with Chase, and Tom Pettit and Joe Clarke played four sets in doubles against Hobart and Thompson, winning all four. The summary:

First round—R. C. Sands beat Bradley 6-2, 10-8. C. E. Sands beat Willing 6-3, 6-1. W. P. Herrick beat Mason by default. Cushman beat Cleveland 6-3, 9-7. Second round—Tete beat A. S. Taylor by default. G. L. Wrenn, Jr. beat Thompson 6-0, 6-3. Cushman beat W. P. Herrick 7-5, 6-3.

RACING AT CHICAGO.

A Thunder Storm Greatly Marred the Day's
Sport at Washington Park.

Chicago, Aug. 23.—A southwest gale and a thunder storm greatly marred to-day's racing at Washington park. There were seven events on the card, two of which were unfinished races from the day before. Susie G. took the fourth heat of the 2:12 pacing and won the race. In the unfinished stake for 2:20 trotters Anne clearly outclassed her field and won the necessary heat two lengths ahead of Miss McGregor. It had been announced that Fined in the interstate stake for 2:10 pacers would attempt to lower the world's record. A young cyclone was blowing down the stretch and after the first heat it was an impossibility to lower any record. B. B. P. took the Calumet stake for 2:14 class trotters with ridiculous ease.

The rain came after two heats of the 2:30 trot had been decided. By far the best performance of the day was the mile of Maude B. and Damiana to beat the pole record of 2:20. They made the mile without a skip in 2:18.4. Dominer, driven by Jack Curry, trotted to beat 2:15.4 and did it in 2:13 flat. The match race between Akron and Australian will be decided to-morrow, each having won a heat to-day.

Summaries.

2:12 Class—Pacing—Purse \$1,000—Concluded.

Time—2:15.4, 2:16.

Match Race—Purse \$200.

Akron, b. m. by Ambassador (Hughes)... 1 2
Australian, ch. g. by Ambassador (Patterson)... 2 1
Time—2:29.4, 2:31.4.

GOOD CONDITION OF TRADE

VOLUME OF TRADE THROUGHOUT
THE COUNTRY NO LARGER.

In the East Stimulating Influences Are Found to be in Continued Activity in Leading Industrial Lines—Bradstreet Gives a Good Showing for the Week.

New York, Aug. 23.—Bradstreet to-morrow says: The volume of trade throughout the east, south, southwest and on the Pacific coast is no larger. In fact, at all southern and eastern centers rather more quiet is reported than a week ago. At western and central western points, with some exceptions, signs are conspicuous of the favorable influence on business of the prospectively enormous Indian corn crop and the very large harvest of spring wheat. At the east stimulating influences are found in continued activity in leading industrial lines, notably iron and steel, the recent marked advances in prices of which metals is being echoed from Chicago and St. Louis. Bank clearings totals for the past six days aggregate \$901,000,000, an increase of nine-tenths of one per cent. over last week, 11 per cent. more than in the third week of August, 1894, and 33 per cent. more than in the like week of August, 1893, in the midst of the panic. The price of cotton is up again on further reports of damage to the crop. A dispatch from Dallas says the north Texas crop will be later than last year and 20 per cent. smaller in yield.

The price is higher than a year ago and cotton goods, notably gingham, have been marked up in sympathy. Wheat exports from both coasts and from Montreal this week have increased again for the fifth week in succession, amounting to 2,339,000 bushels, against 1,824,000 bushels last week and 3,182,000 a year ago.

Demand for lake tonnage at Buffalo is improved, but cold weather has hurt fruit, farm produce and Indian corn in some of the middle states. The demand for shoes, dry goods, notions and clothing in the near future at leading eastern distributing centers is expected to be large.

Mercantile collections at most western centers remain slow, but many jobbers at Chicago, St. Louis, St. Paul and Minneapolis have been rushed to keep up with orders, which have not in all instances been confined to necessities.

At the south grocery, hardware and dry goods jobbers are relatively most active. General trade is as favorable as anywhere in the Carolinas and Georgia. The Louisiana rice crop, it is estimated, will amount to 1,500,000 bags. General trade south is practically waiting until the cotton begins to move. On the Pacific business is not active. Business failures in the United States numbered 192 last week, against 196 in the like week last year.

Montreal and Toronto jobbers anticipate a sharp improvement in trade in the fall. Bank clearings at Winnipeg, Toronto, Montreal, Hamilton and Halifax aggregate \$18,553,000 this week, against \$18,800,000 in the week a year ago. There are 37 failures reported from the Dominion this week, against 20 one year ago.

Case of Consul Waller.

Washington, Aug. 23.—In response to the urgent request of Acting Secretary Ade that Ambassador Eustis send a representative to visit ex-Consul Waller in prison near Marseilles, the state department to-day received a cablegram from Mr. Eustis stating that upon the return of the French minister for foreign affairs to Paris, after an absence of some duration, he and Mr. Eustis had come to an understanding regarding the designation of deputies to be sent to Clairvaux and see Mr. Waller, who is confined at that place. Mr. Newton B. Eustis, second secretary, and Mr. Alexander, the counsel of the embassy, have been delegated by the ambassador and all necessary orders issued to ensure their access to the prisoner. They were to start on their errand to-day.

Internal Revenue Returns.

Washington, Aug. 23.—Returns of internal revenue receipts for July have been compiled. Total receipts were \$13,556,606, a decrease as compared with July 1894 of \$11,979,231. This large difference is accounted for by the fact that in July 1894 great quantities of whiskey were taken out of bond to escape payment of the increased tax on whiskey imposed by the new tariff bill.

SIGNAL NOT HEEDED.

The Gay Head Faid No Attention to the Yacht Nereid When Sinking.

Woode Holl, Mass., Aug. 23.—Steam yacht Nereid, of New York, chartered by L. J. Busbee of Glen Cove, L. I., while on its way from New Bedford to Vineyard Haven struck a rock in passing through the channel between Nantuxon and the mainland to-day. The steamer listed, then pounded again upon the rocks, the blows breaking a hole in the bottom through which the water poured, putting out the fires. In a short time the yacht sank.

The Nereid signalled for assistance to the steamer Gay Head, then passing, but for some reason the signal was not noticed. The United States fish commission boat put off and rendered assistance in taking Mr. Busbee, his wife and two daughters from the deck when the water had risen to within a foot of where they were standing. The ladies were not frightened. They were taken ashore and the steam yacht towed into Little harbor.

Divers will patch the steamer, and she will be towed to New Bedford for repairs. The can buoy was under water, caused by the rough sea and high tide, and the captain lost his reckoning.

THE CLOSING EXERCISES

Of the Universal Peace Union Convention.

Mystic, Aug. 23.—The closing day of the convention of the Universal Peace union was very strong, both in program and attendance. Passages of scripture were read by Mrs. Bertha Cheney Ward of Mystic.

At the annual election of officers Alfred H. Lowe of Philadelphia was chosen president; Charles H. Hastings and Oliver S. Fellows and Belva Lockwood of Washington, Rev. Amadha Deyo of San Diego, Cal., secretaries; Amos R. Ellis of Tacoma, Pa., treasurer.

Among the new arrivals of the day were W. P. Ray of the Rescue mission, Springfield, Mass.; Francis Gallagher of Providence; C. C. Plummer of Providence and W. H. Hale of Hartford.

The report of the president of the International Peace bureau was read by Miss Belva Lockwood, who has this branch of the work in charge.

A brief address was made by James H. Earle of Boston, offering practical suggestions in regard to the abolition of boys' brigades.

Mrs. Bertha Cheney Ward, Miss Christine V. Whipple, Miss Harriet Holmes of Mystic, Levi W. Couch and Frank Lester of Norwich, Herbert Rathbun and J. Holmes of Mystic were appointed for anti-brigade work.

An original poem was recited by John Collins, an aged peace worker of Philadelphia.

Rev. W. S. Heywood delivered an address in which he referred to the great orators—Phillips, Garrison, Sumner and Lucy Stone—in terms of the greatest respect, and dwell on the subject of peace on non-resistance lines as taught by Christianity.

CORBETT WAS A GOOD BATTER.

Edgewood Won a Most Exciting Game
Yesterday—The Crowd Cheered Big Time.

About 3,000 people witnessed the game of baseball yesterday at the Edgewood field in which "Gentleman Jim" Corbett played first base for the Edgewoods. Corbett's batting was especially good, and by his timely hits he did much to win the game for the home team.

The Foot Guard band was present, and as Corbett made his appearance on the field it played "Hall to the Chief," while the crowd cheered vehemently. The tabulated score was as follows:

EDGEWOOD.

McHugh, 2b... 1 5 2 2
Sedgewick, p... 2 0 0 2
Bone, 3b... 1 0 1 3
Fitzgerald, s... 5 4 1 0
Farnam, c... 1 1 0 1
Corbett, 1b... 1 9 0 0
Brennan, c... 1 2 1 0
Lautenbach, lf... 0 3 0 0
Cottrell, rf... 0 0 0 0

Total... 11 27 6 10

BRIDGEPORT.

Posters, p... 1 0 0 1
Mansfield, p... 1 0 0 0
Doherty, 2b... 5 3 0 0
Blansfield, 3b... 3 2 1 0
O'Rourke, c... 0 2 0 1
Hurlbert, lf... 0 2 0 0
Ives, lf... 1 10 0 1
Cunningham, c... 0 1 0 2
Rogers, ss... 5 5 0 2
Belinski, rf... 1 0 0 1

Total... 17 27 4 8

The score by innings was:
Edgewood... 1 0 6 0 1 0 0 0 2-10
Bridgeport... 0 0 2 2 0 1 0 1-8

Summary: Struck out, Mansfield 2; bases on balls, Mansfield 1, Sedgewick 4; hit by pitcher, Sedgewick, Rogers and Belinski; double play, O'Rourke, Ives and Blansfield, Doherty and Rogers; two base hits, O'Rourke, Umpire, Mr. Connor of Waterbury.

Champion Corbett appeared early in the program at the Hyperion last night and hurriedly dressing he took the 9:10 train for New York. Shortly after he reached the depot a trolley car arrived at the station from Savin Rock bearing Bob Fitzsimmons, who also took the train. The two aspirants for pugilistic championship occupied separate cars on their journey.

THE CHINESE OUTRAGES.

Indignation at the Appointment of Viceroy
Liu to Lead the Expedition.

London, Aug. 23.—A dispatch to the Pall Mall Gazette from Shanghai, published this afternoon, says that great dissatisfaction and indignation prevail among the members of the foreign colony at the appointment of the formerly degraded Viceroy Liu, who is regarded as being the originator of the Cheng-Tu riots, to investigate the recent outrages and the causes thereof.

Washington, Aug. 23.—It is said at the state department that if the report is true that Viceroy Liu has been appointed to investigate the Cheng-Tu riots the foreigners have good cause for complaint. If the report be true it is probable that both the British and American governments will protest. Viceroy Liu was governor of the province in which Cheng-Tu is situated, and he is said to have been guilty of gross negligence, which by some persons was regarded as amounting to complicity in the Chinese riots of last June. There are, however, a great many men in China named Liu, and it is thought that there possibly has been a confusion of names.

Fares Have Been Reduced.

New York, Aug. 23.—In view of the 26th triennial of the Knights Templar which is to be held in Boston, August 26 to 30, the Providence and Stonington Steamboat Co. announces that it has reduced fares to Boston and return to \$4 for the round trip. The reduced rate takes effect to-morrow. Return tickets can be used from August 27 to September 10.

SHERIFF CABEL WILL SUE ANY
WRIT AGAINST FIGHTING.
